I will be making a visit to a site that day but have not yet set the time. So, morning or afternoon would work. It would be good to know as soon as possible whether your preference is for a morning or afternoon meeting so I can get my other item scheduled.

By all attorneys, do you include DEQ and is this an order negotiation meeting? If so, then we would need to determine who would attend from DEQ.

Subject: Next EPA/DEQ Meeting

Chip, Mavis,
Mark Stiffler will be in the northwest October 11 and would like to schedule a meeting to discuss the next steps for the Troutdale site, assuming the Final ROD is issued. If the new EPA attorney has been assigned we would like to also invite all the attorneys and include the NRD. Please let me know if October 11 fits in your schedule?
